

WHAT IS NUTRAMETRIX?

We have some of the finest health and nutrition products in the world. Patients want the best recommendations from their trusted health professionals, and nutraMetrix provides a way for health professionals to answer their patients' needs while building lucrative earnings through organizational growth. When a practitioner recommends nutraMetrix, they are encouraging better lifestyle habits that improves patient engagement and health.

NUTRAMETRIX PROVIDES

- Products and services for qualified health professionals
- Comprehensive marketing tools and implementation support
- Detailed training for nutraMetrix Consultants, Health Professionals and their staff

HOW WILL NUTRAMETRIX BENEFIT YOUR PRACTICE?

We know that patients are searching for healthier lifestyles through supplementation and weight loss programs, and their health professionals are the experts they look to for help in achieving their goals. nutraMetrix not only provides the best supplements and weight loss programs for healthier living, it also provides health professionals with more income possibilities! nutraMetrix offers a way for health professionals to make additional income and help pay some of those high overhead costs while giving them more time to do what they love – building healthy lifetime relationships with their patients. Health professionals can build a successful nutraMetrix business through referral marketing and implementation.

HOW WILL NUTRAMETRIX BENEFIT YOUR PATIENTS?

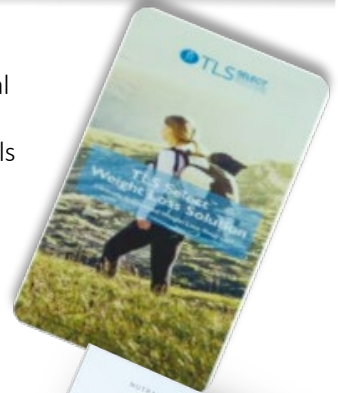

Patients are looking for disease preventing and health promoting nutrients that match their lifestyles. But what if you could further tailor a nutrient regimen using their own genetics? nutraMetrix offers an in office DNA Analysis that can be used to personalize lifestyle recommendations to optimize and maintain health. Gene SNP DNA Analysis and cutting edge nutraceuticals offered by nutraMetrix are two ways you as a practitioner can better manage the health of your patient population. A better understanding of how diet and genes interact will enable YOU to better manage the health and wellbeing of your patient population.

WHAT WILL YOU LEARN?

The nutraMetrix Health Professional course provides comprehensive education that suits many different healthcare practitioners and offers insight into optimal recommendations for diet, lifestyle, exercise and supplementation. Some of the topics include, but are not limited to...
