

FREQUENTLY ASKED QUESTIONS

Who Should Attend This Training?

- NCs who want to learn more about participating in the wellness movement by partnering with Health Professionals
- Health Professionals who want to create or enhance their existing wellness program, improve patient outcomes, and add additional revenue to the practice.
- Staff members who work in Health Professional Offices who want to better understand the nutraMetrix Implementation process.

Why would a current nutraMetrix Consultant who has attended a NC Training in the past want to attend this new format?

It is important for all NCs to keep current with what is taught at the NC Training. This updated format will cover brand new programs and streamlined implementation techniques that have not been covered at prior events. It is also important to attend so you can adequately describe what to expect at training to your prospective nutraMetrix business partners who plan on attending future training courses.

What is required for nutraMetrix Consultant Certification?

In order to qualify for initial or requalified nutraMetrix Consultant Status, attendees must attend the entire session on Friday and Saturday.

Can Health Professionals attend the Friday NC Training Session?

Yes, Health Professionals are encouraged to attend the Friday Session at no additional charge (with the purchase of a Health Professional Product & Implementation/Annual Convention Ticket). We ask that you notify us on your registration form which days you plan on attending.
