

NUTRAMETRIX® CONSULTANT REQUIREMENTS

How do I, a Market America UnFranchise Owner, become a nutraMetrix Consultant (NC)?

Attend a three day nutraMetrix Consultant Training. New UFO's and guests are strongly encouraged to attend a New UnFranchise Owner Training (NUOT) and Basic 5 Training before attending an NC Training.

Where can I learn more about becoming a nutraMetrix Consultant?

You will find detailed product information, FAQs, and current NC/HP trainings schedules on the corporate nutraMetrix website at www.nutraMetrix.com (Account>Events). It is a great resource for Market America UnFranchise Owners, health professionals and prospective NCs in understanding the value of nutraMetrix.

How do I, a Market America UnFranchise Owner, become a **CERTIFIED** nutraMetrix Consultant?

There are two levels of recognition for nutraMetrix Consultants:

Level 1— nutraMetrix Consultant (NC) - You will be considered a nutraMetrix Consultant upon successful completion of the 3-day nutraMetrix Consultant training program.

Level 2— Certified nutraMetrix Consultant - NCs are eligible for certification when they complete the following within two years of attending the nutraMetrix Consultant Training:

- ✓ Open and maintain two Health Professional or HP1 accounts.
- ✓ Ask any two of your HP accounts (personally sponsored by you) to submit directly to corporate, NC field evaluations of your performance. Download the evaluation forms from www.unfranchise.com to give to your HPs.

If the NC does not meet the criteria for certification by 2 years, they lose their NC status. Certified NCs must be re-certified every 2 years.
