

LEVERAGE NUTRAMETRIX AND GROW YOUR BUSINESS!

We have the finest health and nutrition products in the world. Patients want recommendations from their trusted health professionals, and nutraMetrix provides a way for health professionals to meet their patients' needs while building lucrative earnings through organizational growth. When doctors and other health professionals recommend nutraMetrix, they are encouraging better lifestyle habits that improve patient engagement and healthy outcomes.

NUTRAMETRIX PROVIDES:

- Products and services for qualified health professionals
- Comprehensive marketing tools and implementation support
- Detailed training for UFOs, health professionals, and staff

HOW WILL THIS BENEFIT YOUR BUSINESS?

Working with health professionals is easy when you receive coaching through a nutraMetrix Consultant training. We know that patients are searching for healthier lifestyles through supplementation and weight loss programs, and their health professionals are the experts who can help them achieve their goals. We also know that health professionals are looking for additional income streams that can help with high overhead costs and give them more time to do what they love - building healthy lifetime relationships with their patients!

nutraMetrix is looking for professional, organized and committed people who are interested in taking their UnFranchise[®] Business to the next level by working with health professionals, as consultants, to help implement the best custom health solutions on the market. Through nutraMetrix training, you will learn key techniques on how to attract and engage health professionals through our professional program, how to implement customized wellness solutions into health professional practices, and how to build a successful nutraMetrix business for yourself through referral marketing and implementation.

CONSULTANT TRAINING OVERVIEW

The all new two-day nutraMetrix Consultant (NC) training provides comprehensive education that suits all attendees in learning how to successfully design and implement nutraMetrix wellness solutions for health care professionals. This course builds upon the foundation provided in the nutraMetrix 101 and 201 sessions, offered through the Global Meeting, Training, and Seminar System (GMTSS). Attendance at a nutraMetrix 101/201 is recommended prior to attending the two-day NC training, but is not required.

TRAINING TOPICS WILL INCLUDE:

- Why nutraMetrix
- The nutraMetrix Solution
- The Market
- The nutraMetrix Implementation System
- Getting Started as a nutraMetrix Consultant
- Adding NCs and HPs to Your Organization
- Planning for Implementation, Onboarding Staff
- Leading and Motivating Others
- Advanced Training Tools
- Next Steps for Growing your nutraMetrix Business
- Setting 101
- Conducting the Discovery

HEALTH PROFESSIONAL COURSE OVERVIEW

HOW WILL NUTRAMETRIX BENEFIT YOUR PRACTICE?

We know that patients are searching for healthier lifestyles through supplementation and weight loss programs, and their health professionals are the experts they look to for help in achieving their goals. nutraMetrix not only provides the best supplements and weight loss programs for healthier living, it also provides health professionals with more income possibilities! nutraMetrix offers a way for health professionals to make additional income and help pay some of those high overhead costs while giving them more time to do what they love – building healthy lifetime relationships with their patients. Health professionals can build a successful nutraMetrix business through referral marketing and implementation.

HOW WILL NUTRAMETRIX BENEFIT YOUR PATIENTS?

Patients are looking for disease preventing and health promoting nutrients that match their lifestyles. However what if you could tailor a nutrient regimen using their own genetics? nutraMetrix offers an in office DNA analysis that can be used to personalize lifestyle recommendations to optimize and maintain health. Gene SNP™ DNA Analysis and cutting edge nutraceuticals offered by nutraMetrix are two ways you as a practitioner can better manage the health of your patient population. A better understanding of how diet, lifestyle and genes interact will enable you to better manage the health and wellbeing of your patient population.

WHAT WILL YOU LEARN?

The nutraMetrix Health Professional course provides comprehensive education that suits many different healthcare practitioners and offers insight into optimal recommendations for diet, lifestyle, exercise and supplementation. Some of the topics include, but are not limited to:

TRAINING TOPICS WILL INCLUDE:

- The Dynamic Microbiome - Probiotics, Digestive Enzymes, Aloe and Fiber
- Antioxidants in Clinical Practice
- Obesity, Cardiovascular Disease and Sleep Health
- Immunity and Cardiovascular Health
- Stress Factors and Health - Adrenal, Thyroid and Libido
- Fitness Goals and Nutritional Advantages
- TLS[®] Program and Products
- TLS Select Implementation
- nutraMetrix Resources, Tools and Implementation
- Gene SNP™ DNA Analysis and Implementation
- Panel Discussions and Q&A
